(raw transcript)

08 Day 2 Welcome Message

>> Eduardo Diaz: For some of you were that were not here yesterday, the bathrooms are all the way at the end of the hall and I know everybody knows where breakfast was. That's where we're going to have lunch and the breaks are going to be right through 245 door.

For those of you who are in the fellows, we want to leave from about 5:45 to 6:00, I'll let you know and I would like whoever is here at that time to go to the front of the building. We're going to take a group picture.

Whoever wants to be the in the picture, we're going to take that as a memory of this group.

The video that you're going to see here from Doreen, due to the setup in the room, it will sound correctly in the Zoom but there will be a slight delay here in the room. So you will see the video and maybe the voices not going synchronized with the sound and it has to do

with the setup and the delay that we get from the Zoom. So it's not that the video is bad. It's that -- it's just how it works, you know.

So if nothing else, then we today's proceedings are officially open and welcome, everyone.

Thank you.
